For privacy reasons, cameras should not face into or record the private property of others, such as a neighboring property.

(3) Perimeter fences may be installed on the property owner's property. Any such perimeter fence must meet all Association requirements in its dedicatory instrument relative to materials, height, location, coating and appearance and must be approved by the Association before construction begins.

(4) Lighting may be used as a security measure. Any such lighting must be directed onto the property owner's property and minimize spillover to adjacent properties, public areas and

(7) All new and replacement security measures must be submitted to the Association for review using the application process provided to property owners. No work may be initiated until written approval is provided to the property owner from the Association .

These guidelines are effective upon recordation in the Public Records of Harris County, and supersede any Guidelines for Security Measures which may have previously been in effect. Except as affected by Code section 202.023 and/or by these guidelines, all other provisions contained in the Declarations or any other dedicatory instruments of the Association remain in full force and effect.
